# Caution

I have tried to divide this book into two parts : the boring "me" part and the interesting sections on Ottawa, Acadia University, Military (army), Government of Canada (mostly civil service) & Canadian banks; India / Hong Kong / Czech

Interesting only if you are interested in that particular segment eg Ottawa in the 1940s & 50s.

The "me" part is for

~~their kids~~ grandchildren .... a bit of family history. Only of interest if you are family. ☺ Hopefully some missing pieces of family here - history, traits, reasons why, anecdotes etc.

I hope the same with the other non family chapters - there will be some history, anecdotes about the Canadian Army, the Canadian Banking institutions etc.

Here goes ....

Footnote

There is little mention of Dan my wife - the most interesting part of all. I might reconsider writing this later on but as of now this is a deliberate omission. Love you Dan - our story is ours alone.
